easy solder jet 2

Selective soldering and desoldering machine easy solder jet 2

Specifications

Maximum width of PCB	250 x 400 mm	Range of temperature setting:	200°C - 300°C
Electrical power	max. 2,5kW	Voltage:	220/230 V, 50 Hz
Heating-up time	approx. 30min	Contents of solder	approx. 16kg (3l)
dimensions w x d x h (without print holder)	350 x 600 x 270mm	Weight	ca. 40 kg
Standard PCB holder:	max PCB dimensions 250x400mm		

Options:

Preheater BPH 28/28

Dimensions	280 x 280 mm
Voltage	240 V, 50 Hz
Electrical power	2000 Watt
Range of temp. setting:	50°C - 500°C

Other dimensions on request

Enlarged PCB holder

- For option with preheater on request
- For larger PCB's on request

Nitrogen option on request
